\*Not valid with any other special. One coupon per order, one coupon per customer please. If you have problems redeeming this coupon please contact us by phone or email above. Thank You .

## 6813031 Medium Industrial First Aid Kit

Thank you for purchasing the Medium Industrial First Aid Kit for your organization. The Medium Industrial First Aid Kit is one of our most popular wall mounted first aid kits for businesses or institutions. Maintained on a regular schedule, this kit will serve 25 to 75 people in one location and meets or exceeds all OSHA and ANSI Z308.1-2003\* standards so compliance is a snap.

Now that you have the right first aid kit for your organization we make it easy for you to maintain and resupply your new kit. You will find inside this flyer an Inventory Work Sheet, a Standard Fill List for this kit and a link to our online interactive order form. You can make copies of these forms and use them to resupply your new first aid kit as needed. Checking your kit on a regularly scheduled basis and restocking as needed is one of the most important components of OSHA compliance.

Pay special attention to the eight line items in bold type on the work sheet as these are the eight items referred to in the ANSI standard, Z308.1-2003 as the " Minimum requirements for a workplace first aid kit."

Use the work sheet to do a physical inventory and then go to our online interactive order form to place your order:

\*We recommend that you check with local authorities as some states have their own state programs in place. For a good overview of the OSHA first aid standard you can download OSHA's Best Practices Guide, Fundamentals of a Workplace First Aid Program at this link: <http://www.osha.gov/Publications/OSHA3317first-aid.pdf>
